SUMMARY

Skilled web developer with over 3+ years of experience in building modern web applications using ReactJs and NextJs. Experienced in translating client requirements into scalable solutions. Strong background in JavaScript, CSS, HTML, debugging, client servicing, and manual testing. Proven track record of delivering high-quality applications and maintaining seamless client communication throughout the project lifecycle.

SKILLS

Technical skills

- Web Client Development - JavaScript, React.js, Redux, Next.js, HTML5, CSS3, Bootstrap, Material UI, Ant-Design, Tailwind CSS
- Code Versioning Tools - Git, GitHub

Key skills

- Application Design, Debugging, Performance Improvement, Front-end Architecture, Webpage Optimization, Issue Resolution, Client Servicing, Manual Testing, Client Communication, Client Requirement Understanding

General

- Languages - English and Hindi, Gujarati as mother tongue

EXPERIENCE

IndiaNIC Infotech Limited

Ahmedabad, India

Software engineer

June 2024 – Present

- **Cybuild WebApp:** Contributed to Cybuild, a construction completions and permit system, by developing form builder modules, analytics dashboards with chart.js, and multi-role access management. Maintained direct client communication for gathering requirements and refining UX based on feedback.
- **BYHH (Hospital Management System):** Built a comprehensive patient management system to handle visit histories, wound tracking, structured medical assessments, and notification alerts. Developed responsive React-based UI with reusable components and ensured seamless data flow through API integration.
- **Topspin Menu App:** Created an in-house food ordering system for Topspin Café with PetPooja API integration. Implemented real-time food listings, add-to-cart functionality, and category-based filtering for items (e.g., beverages, snacks). Delivered a mobile-optimized and QR-accessible interface.

Brainvire Infotech

Ahmedabad, India

UI Developer

March 2023 – June 2024

- Designed a browser-based PDF editor with annotation tools and collaborative editing features using React.
- Built an online exam platform with user role management (student, teacher, admin), randomized questions, time-bound sessions, scheduling tools, and analytics dashboards.
- Led redesign of the company's website with modern responsive layouts, interactive animations, and performance optimizations.
- Collaborated with cross-functional teams to integrate frontend modules with backend APIs while adhering to code quality standards.

Virtual Height IT Services Pvt. Ltd.

Ahmedabad, India

React Developer

Feb 2022 – Feb 2023

- Developed a B2B jewelry e-commerce platform using React, Redux-Saga, and Material UI; included product catalogs, cart systems, user dashboards, and payment flows.

- Contributed to a restaurant delivery application with geo-based restaurant search, order placement, and cart management.
- Refactored legacy code by building reusable components and improving load performance using lazy loading and code splitting.
- Converted Figma/XD designs into pixel-perfect responsive web pages using React.js and Tailwind.

EDUCATION

Silver Oak College of Engineering and Technology
B.Tech in Computer Science with 8.00 CGPA

2018 - 2022

PERSONAL PROJECTS

- Developed RTO applicant portal for final year college project enabling online application processing.
- Built a Calculator App using React.
- Created a Weather Data App to fetch real-time weather updates.
